EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee. A call was made to John James on August 30, but no return call was received.

The application has been amended as follows:

Claim 19, line 1: replace "stent" with "heart valve".

The following is an examiner's statement of reasons for allowance:

The prior art of record fails to teach a process for manufacturing an implantable heart valve comprising the steps providing a collection of similarly sized leaflets; applying a load to each leaflet of said collection and observing the strain in response in each leaflet; sorting the leaflets into subgroups based on their respective strain response; and, attaching only leaflets from a single subgroup to the heart valve such each leaflet will exhibit similar strain response to fluid pressure.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
